

A-Level PE

Meet the Team:

Mrs S Hillam

- Head of Department and lead teacher for the Anatomy and Physiology section of the course

Miss B Denton

- Head of Year 12 and lead teacher for the Sport and Society section of the course

Mr C Davis

- School SENCO and lead teacher for the Skill Acquisition section of the course

Things to do before you start the course:

Read the AQA A-Level Specification (see link below) to understand the course requirements and how you are assessed.

Bridging *work*

Yr12 Curriculum Content

ANATOMY & PHYSIOLOGY

1. Cardiovascular system
2. Respiratory system
3. Neuromuscular system
4. Musculoskeletal system and movement analysis

SKILL ACQUISITION

1. Skill continuums and skill transfer
2. Practice
3. Theories of learning
4. Guidance and feedback
5. Memory models

SPORT & SOCIETY

1. Pre-industrial > post-industrial > post WWII
2. Impact of sport on society > impact of society on sport

Task 1:

Write down **2** areas you think will be your **strengths** and **2** areas you think are your **weaknesses**

Strengths

-
-

Weaknesses

-
-

To complete the work on the next few pages, either print a copy and handwrite it on, or include text boxes over the image files

Each section of the course below has 2 associated tasks. Complete the tasks prior to your first lesson in September.

Section 1: Anatomy & Physiology

Task 1

Label the heart, then answer the following questions:

1. Which chambers are larger? Explain why.
2. Which muscular wall is larger? Explain why.
3. What is the function of valves in the heart?

Task 2

The graph below demonstrates the changes to heart rate during exercise. One is a fit person, one is an unfit person. Complete the tasks below.

- Using the key on the top right of the graph, state which line represents a fit person and which line represents an unfit person.
- Before they start exercising, each person experiences a small 'anticipatory rise'. Suggest what this could mean
- Complete the table below to explain changes in heart rate as shown on the graph:

Point	Explanation
A	
B	<i>Steady heart rate because ...</i>
C	<i>HR declines quickly in a healthy person because...</i>

- Suggest why a non-fit person's HR drops slower than that of a healthy person.

Section 2: Skill Acquisition

Task 1

Using the information from each of the skill classifications below, place a **free throw in basketball** on the following continua using an X. Under each continuum, write your reason for placing it there.

Task 2

Identify a skill that could positively transfer into a basketball free-throw. Explain your answer.

Section 3: Sport & Society

*Pre-industrial
Britain*

*Post-industrial
Britain*

*Post-WW11 until
today*

Task 1

Watch the following video: <https://www.youtube.com/watch?v=G6K3WHKHTsU>

Create a mind map on life in pre-industrial Britain:

- When did the pre-industrial period begin in England?
- Where did most people live?
- What was the main occupation of people in pre-industrial Britain?
- What was the two class systems that were around at the time?
- Why didn't people travel as much?
- Why couldn't people read and write?
- Why didn't people live as long as people do today?

Task 2

The following sports have a history dating back to games in pre-industrial Britain.

Association football

Mob football

Tennis

Real tennis

Using the pre-industrial name in **red**, research and take notes on the history of one of the above sports in the following box.

Chosen sport:

How did the sport develop through these time periods:

Pre-industrial

Post-industrial

Post WW11

21st Century

List some of the social and cultural factors that have had an effect on the development of the sport

Any key events that have originated from the sport (in Britain)

Key famous examples from within the sport
